OUTLOOK FOR THE FOURTH YEAR OF MILITARY RULE —(S)—

10 September 1976

**CHILE**

Chile faces many problems in the year ahead. Movement toward constitutional government with the creation of a Council of State may presage reinstatement of a unicameral legislature and the possibility of majority popular elections, which would be the first in six years. The Pinochet administration, however, remains opposed to political activity in general. Problems with the Catholic Church and the Christian Democratic Party have continued and will probably follow into the fourth year of rule. Civilian advice to the junta will be sought but often ignored.
