SUMMARY: **CHINA WILL PROVIDE IRAN WITH THE ABILITY TO CONSTRUCT ITS OWN MILITARY EQUIPMENT PLANTS.**

**TEXT:** The Chinese and the Iranians have concluded deals whereby the Chinese, instead of selling large quantities of war materials to Iran, will be providing Iran the wherewithal to build and operate munitions and equipment plants of its own. Plans which manufacture aircraft missiles and tanks, whether these projects would be turn-key whole plant projects, joint ventures or some other form of joint cooperative effort, did not know.
