 Subject: FW: Provisional Chronology of the Timika shooting
 Importance: High

Lance and Mack, please pass to Peter Ipsen on the Indonesia desk per my discussion with him earlier today.

This is our preliminary chronology derived in part from the info we used in our most recent study on the Timika shootings, giving credence to the view that the OPM rebels were the leading culprits. Still vetting the earlier info and seeking the views of our Australian friends, but handicapped by not having the FBI info or the latest handover of info by the [redacted] VR (b)(6)
