## DEFENSE INTELLIGENCE AGENCY

Federal Agency Data Mining Report for Fiscal Year (FY) 2012-2013

### Introduction.

The Defense Intelligence Agency has prepared this document in response to Section 804, Public Law 110-53, Federal Agency Data Mining Reporting Act of 2007 (the Act), which requires "the head of each department agency of the Federal Government" to provide a report "not less frequently than annually...to include any activity to use or develop data mining," as defined by the Act. **DIA does not conduct data mining activities as defined by the Act.** This report has been produced in coordination with the Privacy Officer of DIA and reflects a comprehensive review of DIA data mining activities, as defined by the Act for FY 2012 and 2013.

For the purposes of this report, "data mining" is defined as a DIA program involving pattern-based queries, searches, or other analyses of one or more electronic databases where:

(A) DIA is conducting the queries, searches, or other analyses to discover or locate a predictive pattern or anomaly indicative of terrorist or criminal activity on the part of any individual or individuals;

(B) the queries, searches, or other analyses are not subject-based and do not use personal identifiers of a specific individual, or inputs associated with a specific individual or group of individuals, to retrieve information from the database or databases; and

(C) the purpose of the queries, searches, or other analyses is not solely:

- (i) the detection of fraud, waste, or abuse in a Government agency or program; or
- (ii) the security of a Government computer system.

This report does not include DIA queries, searches, or analyses of telephone directories, news reporting, information publicly available to any member of the public without payment of a fee, or databases of judicial and administrative opinions or other legal research sources.

This report does not include a classified Annex, or any further attachments, as DIA does not conduct data mining activities as defined by the Act, and has no activities to report.
