This is to let you know that the Stillman manuscript is in the mail to you. I have tasked [redacted] (as well as DI) to review it. In the tasking (which is #00-00250), I indicated that I was forwarding [redacted] copy to you. I did forget to include the "Coordination Record," which is attached to this note. Will leave it to you and [redacted] to determine what [redacted] elements need to review the document.
