

# CICG Workforce Update

10 MAR 2020 1200 EST

(b)(3):10 USC 424; (b)(3):50 USC 3024(i)

Map is UNCLASSIFIED.

SOURCE: World Health Organization

**(U) CONUS COVID-19 Statistics**

1. (U) 729 confirmed cases (+184)
2. (U) 26 deaths (+4)

Map is UNCLASSIFIED.

SOURCE: Center for Disease Control

Figure 2: Reported Cases

3. (U) Total states with COVID-19
  - a. (U) 36 states (+4)
4. (U) States of interest:
  - a. (U) Alabama: No confirmed cases
  - b. (U) District of Columbia
    - i. (U) 23 patients being monitored/tested (+4)
    - ii. (U) 17 negative results (+3)
    - iii. (U) 4 presumptive positive results (+3)
  - c. (U) Maryland: 5 confirmed cases (+2)
  - d. (U) Virginia:
    - i. (U) 166 being monitored (+27)
    - ii. (U) 252 completed testing process with no public health action
    - iii. (U) 3 presumptive positive cases (+1)
  - e. (U) West Virginia: No confirmed cases
5. (U) States of emergency: 11 total (+3) Washington, California, Indiana, Kentucky, Maryland, New York, Pennsylvania, Utah, Ohio, Illinois, New Jersey
6. (U) COVID-19 comparison:
  - a. (U) Seasonal Flu: 0.1% fatality rate
  - b. (U) COVID-19: 3.5% fatality rate
  - c. (U) SARS: 10% fatality rate
  - d. (U) MERS: 35% fatality rate

#### **DIA Surgeon General Update**

(U) EMPLOYEES (MILITARY, CONTRACTORS, AND CIVILIANS) NEED TO CHECK THE COVID-19 ALERT SIGNS POSTED AT THE ENTRANCES AND ELEVATORS WITHIN DIA BUILDINGS ON A REGULAR BASIS AS NEW RESTRICTED COUNTRIES MAY BE ADDED.

(U) Employees working in one of the high-risk countries should monitor their health status. If they become symptomatic (cough, fever, shortness of breath) they should contact their medical provider first to receive guidance. Employees must then notify their supervisor if advised to stay at home; if admitted to a health care facility; or if placed in community quarantine related to COVID-19. If diagnosed with COVID-19, please contact the MSOC immediately at (b)(3):10 USC 424

(U) Unlike the common cold or seasonal flu, the specific symptoms of COVID-19 are cough, fever, and shortness of breath. If you experience symptoms, stay at home and call your medical provider for guidance.

(U) Precautionary measures include: frequent hand washing at work and home for at least 20 seconds with soap and water; use hand-disinfecting gels (containing 60% or greater alcohol); cough into your elbow; and try to avoid shaking hands whenever possible to reduce the risk of transmission of COVID-19.

(b)(3):10 USC 424; (b)(6)

**(U) What Does Home Self-Isolation Mean?**

- (U) Home self-isolation means to remain at home and not go to work, limit your movements outside, and monitor your health for 14 days.

**(U) Home Self-Isolation Guidelines for DIA Employees Working at DIA Facilities:**

- (U) Stay at home and do not come to work.
- (U) Avoid all non-essential travel around the community.
- (U) Avoid crowds, public events, meetings, social activities, or other group activities. If possible, have your food delivered to your door to minimize exposure and transmission.
- (U) Avoid close contact (coming within 6 feet of someone): For example, you may take a walk outside but avoid close contact with others.
- (U) Do not share utensils, toothbrushes, water bottles, pillows, and avoid shaking hands, kissing, hugging, or other intimate activities.
- (U) Call your medical provider for guidance before going to a medical appointment.
- (U) If you need to get urgent or emergency care, let the medical staff at your personal provider's office or the urgent care center or the emergency department medical staff at your local hospital know that you have been on home self-isolation because of travel to China, Korea, Hong Kong, Italy, Japan, or Iran within the past 14 days.

**(U) How Do I Monitor My Health?**

- (U) During this time, employees are required to monitor symptoms including fever, cough and shortness of breath.
- (U) Employees must also check and record their temperature twice a day. If it's elevated above 100 degrees Fahrenheit during the 14 days, employees should call their medical provider first for further clinical guidance.

**(U) If You Must Go Out for Essential Reasons:**

- (U) Cough/sneeze into your shoulder/elbow.
- (U) Wash your hands often with soap and water for 20 seconds, or use an alcohol-based hand sanitizer that contains at least 60% alcohol.
- (U) Do not shake hands.
- (U) Avoid touching your mouth, nose, and eyes to minimize transmission.

**(U) Security Update**

(U) The DIA Police and Office of Security are committed to protecting the Agency and its employees from the risks posed by potential exposure to the COVID-19. The DIA Police have established the following procedures to assist with protecting the workforce from possible COVID-19 exposure in DIA facilities:

1. (U) DIA employees and visitors to DIA facilities should expect to see additional procedures put in place to protect the workforce against the spread of the COVID-19.
2. (U) DIA Police have placed notices on the entrances of all DIA facilities notifying employees and visitors that if they have visited China, Hong Kong, Korea, Japan, Italy or Iran in the last 14 days, they will not be allowed in the facility.

(b)(3):10 USC 424;  
(b)(3):50 USC  
3024(i)

**(U) Service PCS Travel Restrictions**

- (U) ARMY: On 7 Mar 20, the Department of the Army released fragmentary order (FRAGO) 4 from execute order (EXORD) 144-20 Army wide preparedness and response to COVID-19 outbreak. Effective immediately, Army PCS moves to and from CDC Level 3 countries (Korea and Italy) will stop and delay travel until 6 May 2020 or further notice. Soldiers stationed in countries with a CDC level 2 or above, who are scheduled to attend CONUS PME for 6 months or less, in a training status, will postpone their schooling until further notice. Soldiers in countries with CDC COVID-19 level of 2 and above, who are scheduled to attend CONUS PME for 6 months or longer, will arrive 14 days early to sites identified for screening and quarantine. Soldiers will not attend training, exercises, exchanges, and visits in countries with a CDC COVID-19 Level 2 and above, and international students from countries with a CDC COVID-19 alert level category 2 and above will not participate in all CONUS scheduled exercises, exchanges, and visits.

[Redacted]

CDC and Department of State travel advisory  
Level 3 issued for Italy on February 28, 2020.
