Overview

Key Findings and Recommended Focus Areas

Key Findings

56% of DIA's eligible workforce completed the 2015 WES, a 14% increase over 2014.

DIA's 2015 response rate exceeds the IC-wide response rate.

DIA scores have **increased** between 2014 and 2015, but have **not rebounded to 2012 levels**

Between 2014 and 2015, **86%** of scores increased

Between 2012 and 2015, **15%** of scores increased

All index scores except **Fairness** increased between 2014 and 2015. Largest increases:

Pay

Effective Leadership – Senior Leaders

Over **1 in 4** civilians plan to leave in the next year. Most cite:

Career Progression / Promotion Opportunities

Recommended Focus Areas

Continue to Focus

on the action planning areas identified in 2013 and 2014 (both low scoring and highly correlated to overall satisfaction) to maintain momentum:

- **Effective Leadership – Senior Leaders**
- **Effective Leadership – Empowerment**
- **Performance Based Rewards & Advancement**

Target

the following low scoring groups to maximize engagement and organizational satisfaction

- **Millennials** - lowest scoring generation
- **GG13s & Below** - lowest scoring groups by rank or grade
- **Collectors** - lowest scoring civilian mission area

Civilians in these groups are also more likely to indicate that they plan to leave DIA within the next 12 months.

Item Trend Analysis

Key Item Scores Over Time

2015 Scores

ORGANIZATIONAL SATISFACTION

Considering everything, how satisfied are you with your organization?

RECOMMENDING DIA

I recommend my organization as a good place to work.

ORGANIZATIONAL PRIDE

I am proud to work within the DIA Enterprise.

JOB SATISFACTION

Considering everything, how satisfied are you with your job?

Key Item Scores Over Time

Scores for all four key items **increased** between 2014 and 2015, but none have matched 2012 scores

Organizational Satisfaction by DIA Organization*

Organizational Satisfaction increased Agency-wide from 45% to 50% between 2014 and 2015, but not all DIA organizations saw an increase in scores

*Centers are included in the 2014 and 2015 DI Score. CE includes Leadership Offices, Special Offices, and (b)(3), 10 USC 424

Although scores increased between 2014 and 2015,
only 2 indices match or exceed 2012 scores: **Teamwork & Pay**

Note: 2012 – 2014 Index scores were recalculated to match ODNI algorithm; scores may differ slightly from prior DIA reports.

2015 Recommended Focus Areas

Continue to Focus on These Three Areas to Maintain Momentum

To identify focus areas, the correlation between each key index and organizational satisfaction was examined. These three recommended focus areas are both highly correlated to satisfaction and low-scoring among the indices. They were also focus areas in 2013 and 2014.

Effective Leadership – Senior Leaders

Satisfaction with the amount of information provided by management, level of respect for senior leaders, and perceptions of senior leaders' **honesty, integrity, & ability to motivate.**

Effective Leadership – Empowerment

The extent to which employees feel empowered with respect to work processes and satisfied with their **involvement in decisions** that affect their work.

Performance Based Rewards & Advancement

The extent to which employees feel **rewarded & promoted** in a fair and timely manner for their performance and innovative contributions to the workforce.

Note: 2015 Federal survey results will be released in Fall 2015

2015 Recommended Focus Areas

By Grade and Rank

Perceptions by Rank and Grade

Across grade and rank, there were increases in index scores for Senior Leaders and Performance Based Rewards & Advancement. However, as in 2014,

Civilian GG13s & Below

continue to be the lowest scoring groups by rank or grade. While the Empowerment scores increased for civilians between 2014 and 2015, it decreased for Military.

2015 Recommended Focus Areas

By Generation

Perceptions by Generation

All 3 focus areas show similar trends by generation; the following generation continues to have the lowest index scores:

Millennials
(born after 1980)

Millennial scores have shown considerable improvement since 2014; perceptions of Senior Leaders increased by 9 percentage points in just one year.

Item Comparison Overview

DIA scored below the IC for 85% of survey items.

5 items had DIA/IC gaps of 15 percentage points or more:

- *I recommend my organization as a good place to work. (19% lower)*
- *Employees have a feeling of personal empowerment with respect to work processes. (17% lower)*
- *How satisfied are you with your opportunity to get a better job in your organization? (17% lower)*
- *Managers communicate the goals and priorities of the organization. (15% lower)*
- *I have a high level of respect for my organization's senior leaders. (15% lower)*

Key Index Comparison

DIA index scores were below the IC index scores for 11 of 12 indices, all except Pay.

Comparing DIA and IC Scores

OPM and ODNI Indices

These indices are calculated for all federal agencies; ODNI compares agency scores across the Intelligence Community and OPM compares scores across the Federal government*.

2015 Scores for OPM and ODNI Indices

↓ DIA scored lower than the IC-wide score for all indices. The greatest difference was for **Talent Management** (9% gap).

DIA Scores for OPM and ODNI Indices, 2012 - 2015

↑ Scores for all indices increased by at least three percentage points between 2014 and 2015. The greatest increase was for: **Talent Management** (+5%)

* 2015 Federal survey results will be released in late Fall 2015

Future Plans of Civilians

Overview of Respondents Considering Leaving in the Next 12 Months

28%

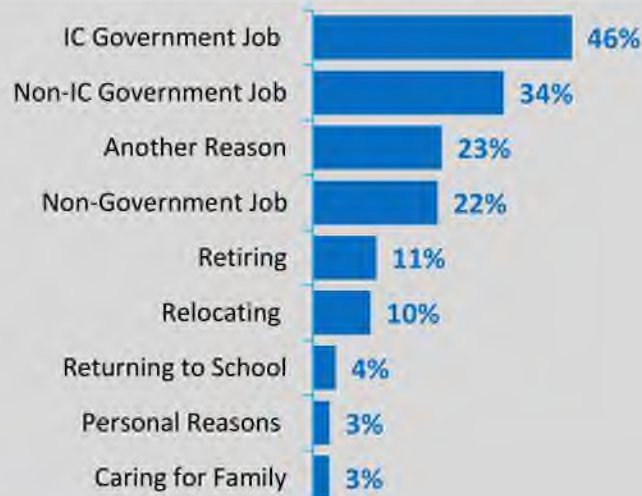

of civilian respondents
plan to leave DIA
within the next 12 months.

This item provides insight into which types of civilian employees are considering leaving DIA and factors driving their intent to leave. The percentage of employees intending to leave exceeds the percentage of employees that actually depart the agency.

The most commonly selected factor is
insufficient career progression / promotion opportunities

Future Plans of Civilians

Overview of High Risk Demographic Groups

High Risk Demographic Groups

Most Likely to Plan to Leave in the next 12 months

28% of civilian respondents indicated that they plan to leave DIA within the next 12 months. These 3 groups are most likely to plan to leave DIA:

Millennials

Planning to Leave: **40%**

Grades GG13 & Below

Planning to Leave: **31%**

Collectors

Planning to Leave: **32%**

The following are least likely to indicate that they plan to leave within the next 12 months:

- GG15s (planning to leave: 19%)
- Information System Professionals (20%)
- Baby Boomers (23%)

Top Destination for all 3 High Risk Groups

Rather than planning to leave the IC or federal service, all 3 high risk demographic groups are most likely to plan to leave DIA for **Another IC Agency**.

Factors Most Likely to Influence High Risk Groups

Note: Respondents could select multiple responses

Millennials

Insufficient career progression / promotion opportunity, 75%

Dissatisfaction with Senior Leadership, 56%

Insufficient access to career development opportunities, 50%

Insufficient lateral career flexibility, 40%

Dissatisfaction with supervisor / management, 35%

GG13 & Below

Insufficient career progression / promotion opportunity, 69%

Dissatisfaction with Senior Leadership, 49%

Insufficient lateral career flexibility, 44%

2015 Workforce Engagement Survey: Agency Report

Appendix A: Survey Methodology, Definitions, and Respondent Profile

One Mission. One Team. One Agency.
Committed to Excellence in Defense of the Nation

Appendix A: Methodology and Importance

Survey Overview

About the Survey: DIA fulfilled the Office of the Director of National Intelligence (ODNI) requirement to participate in the 2015 Intelligence Community (IC) Survey by incorporating survey items from the IC Survey into the Workforce Engagement Survey (WES). The WES measures employee perceptions across the key indices that drive employee satisfaction and identifies trends and changes over time.

Administration: The 2015 WES was open to all full-time, paid, DIA-funded military¹ and civilian employees between 4 May and 29 May 2015. Surveys were administered via a web-based technology; employees received an email notification that included a unique link to the survey on JWICS or SIPRNet.

Response Rate: The **Agency response rate is 56%**, a 14 percentage point increase over last year's 42% response rate. Based on this response rate, the confidence level is 99% +/- 1.25.

Data Analysis and Reporting: Data was collected and analyzed by DIA's Workforce Analytics Team (b)(3)-10 USC 424. Analysis of DIA's Workforce Engagement Survey included index calculations; sub-group analysis; regression analysis to identify focus areas and comparison with the Intelligence Community Climate Survey (ICCS) and OPM's Federal Employee Viewpoint Survey (FedView).

In this report, percent positive includes the top two points on the response scale: Agree and Strongly Agree, or Satisfied and Very Satisfied.

Why are Employee Perceptions Important?

Employee satisfaction and commitment are critical to maintaining high performing organizations and attracting and retaining top talent.

The US Merit Systems Protection Board (MSPB) found a significant relationship between employee engagement and mission accomplishment in federal agencies². MSPB found that higher levels of employee engagement are correlated with:

- Higher scores on the program results/accountability portion of OMB's Program Assessment Rating Tool (PART)
- An employee's intent to leave the agency
- An agency's average sick leave use
- Levels of equal employment opportunity (EEO) complaint activity

Numerous studies of private and public sector organizations have demonstrated a positive relationship between employee satisfaction and engagement and desired organizational outcomes, including: customer satisfaction, productivity, and profitability³.

Appendix A: Methodology – Answers to WES FAQs

WES Inclusion Criteria: Who is Eligible to Take the WES?

Data collection is governed by several legal and contractual authorities, which means that not every person associated with DIA is eligible to participate in the Workforce Engagement Survey. Specifically, we distribute the WES to active, full-time, paid, DIA-funded civilian and military employees based on information in eZHR.

DIA does not distribute the WES to affiliates or employees on rotation, students, foreign nationals, part-time reservists, contractors, suspended employees or those on leave without pay. Military members assigned to a combatant command JIOC also do not receive it, as they are managed by their CCMD; they do participate in their CCMD Climate Survey—which is similar to the DIA WES. Inbound JDA employees can participate in the overarching IC Climate Survey as part of their parent agency, which avoids duplicative reporting at the IC level (WES results are included in this IC survey, so DIA employees don't have to do it twice). [...]

For those of you clearly part of the DIA team but not currently authorized to take the survey, I'm working on ways to close this "survey gap" to make sure your voices are heard loud and clear here at HQ.

–Chief of Staff Update, 22 May 2015

WES Confidentiality: Are responses tied back to an employee?

Comments or scores are never tied to an individual respondent. Workforce Engagement Survey responses are confidential, meaning that respondents' names and identifying information are not tied to individual responses. Confidentiality is not the same as anonymity; the respondent's email address is linked to their survey record, which includes their survey response, so that the survey software can track participation. However,

"Survey responses are analyzed by an independent third-party contractor and reported in aggregate form only. The individual link ensures that no one takes the survey more than once and keeps you from being reminded to take it if you already have."

–Chief of Staff Update, 7 May 2015

To protect WES respondent confidentiality, OHR2D does not report scores made up of less than ten respondents; any time there are less than 10 respondents in a subgroup, data is not reported. For example, if there are less than ten women in your organization, scores by gender will not be reported. Comments are also only reported when there are ten or more respondents in a group.

Appendix A: Definitions of Key Indices

Definitions of Key Indices	
Effective Leadership - Empowerment	Measures the extent to which employees feel empowered with respect to work processes and how satisfied they are with their involvement with the decisions that affect their work.
Effective Leadership - Fairness	Measures the extent to which employees believe disputes are resolved fairly in their work unit, whether or not employees believe arbitrary action and personal favoritism is tolerated, and if employees feel comfortable reporting illegal activities without fear of reprisal.
Effective Leadership - Senior Leaders	Measures the level of respect employees have for senior leaders, satisfaction with the amount of information provided by management, and perceptions about senior leaders' honesty, integrity, and ability to motivate employees.
Effective Leadership - Supervisors	Measures employees' opinions about their immediate supervisor's job performance, how well supervisors give employees the opportunity to demonstrate leadership skills, and the extent to which employees feel supervisors support employee development and provide worthwhile feedback about job performance.
Employee Skills/ Mission Match	Measures the extent to which employees feel that their skills and talents are used effectively. Furthermore, it assesses the extent to which employees get satisfaction from their work and understand how their jobs are relevant to the organization's mission.
Pay	Measures how satisfied employees are with their pay.
Performance Based Rewards & Advancement	Measures the extent to which employees feel they are rewarded and promoted in a fair and timely manner for their performance and innovative contributions to the workforce.
Strategic Management	Measures the extent to which employees believe that management ensures they have the necessary skills and abilities to do their jobs, is successful at hiring new employees with the necessary skills to help the organization, and works to achieve the organizational goals with targeted personnel strategies and performance management.
Support for Diversity	Measures the extent to which employees believe that actions and policies of leadership and management promote and respect diversity.
Teamwork	Measures the extent to which employees believe employees communicate effectively both inside and outside of their team organizations, creating a friendly work atmosphere and producing high quality work products.
Training & Development	Measures the extent to which employees believe their development needs are assessed and appropriate training is offered, allowing them to do their jobs effectively and improve their skills.
Work/Life Balance	Measures the extent to which employees consider their workloads reasonable and feasible, and managers support a balance between work and life.

Appendix A: Definitions of ODNI and OPM Indices

Definitions of ODNI and OPM Indices	
Intelligence Community (IC) Integration	This index was developed by ODNI to measure employee perceptions of the IC's progress toward transformation and integration. This index is composed of 5 survey items and measures whether employees feel a sense of community (shared mission and values) across the IC, the importance they place on collaboration in accomplishing our mission, and how easily employees can share knowledge and collaborate with colleagues in other agencies.
Job Satisfaction	This index is part of OPM's Human Capital Assessment and Accountability Framework developed in 2009 and is composed of 7 items. This index measures the degree to which employees are satisfied with their jobs, including liking their work and feeling it is important, feeling satisfied with their involvement in decisions affecting their work, their ability to get a better job, and their pay.
Leadership & Knowledge Management	This index is part of OPM's Human Capital Assessment and Accountability Framework developed in 2009 and is composed of 12 items. This index measures the degree to which supervisors and senior leaders are perceived as trustworthy, respected, motivating, and effective overall.
Talent Management	This index is part of OPM's Human Capital Assessment and Accountability Framework developed in 2009 and is composed of 7 items. This index measures employee perceptions concerning their organization's ability to recruit and continuously improve top talent. It also gauges the degree to which employees see themselves as being fully utilized and developed.
Results-Oriented Performance Culture	This index is part of OPM's Human Capital Assessment and Accountability Framework developed in 2009 and is composed of 13 items. This index measures the degree to which employees see a linkage between their work and the agency's mission, goals, and performance. It also gauges whether employees believe that high performers are recognized, rewarded, and promoted, and whether the agency effectively deals with poor performance.
Conditions for Employee Engagement	This index was developed by OPM in 2011 to measure the engagement potential of an agency's work environment – the conditions that lead to employee engagement. The index is composed of 15 items and includes items related to employee perceptions of the integrity of leadership and leadership behaviors, the interpersonal relationship between worker and supervisor, and employee's feelings of motivation and competency relate to their role in the workplace.
New Inclusion Quotient (IQ)	This index was developed by OPM in 2014 and is being calculated by IC agencies for the first time in 2015. The index is built on the concept that individual behaviors, repeated over time, form the habits that create the essential building blocks of an inclusive environment. Workplace inclusion is a contributing factor to employee engagement and organizational performance. This index is composed of 20 items that are related to inclusive environments. These 20 items are grouped into 5 Habits of Inclusion: Cooperative, Empowering, Fair, Open, and Supportive.

Appendix A: Index Sources

Index Sources	
Best Places to Work Indices	<p>The Partnership for Public Service ranks Federal Agencies annually based on their survey results. DIA participates in this ranking as part of the aggregate IC score. The Partnership measures 12 sub-indices and the Best Places to Work (BPTW) ranking. ODNI also calculates BPTW sub-indices overall for the IC and by IC Agency. Whereas the other indices are calculated via an average of the composite items, the Best Places to Work ranking calculation is proprietary to the Partnership, based on the three items below:</p> <ul style="list-style-type: none">• I recommend my organization as a good place to work• Considering everything, how satisfied are you with your job?• Considering everything, how satisfied are you with your organization? <p>The <i>IC Best Places to Work</i> index scores are aggregated across the Intelligence Community. Individual IC agency scores are not released to the public.</p>
OPM/ODNI Indices	<p>Seven OPM and ODNI indices were calculated to aggregate related individual items together into one easy to understand score. Each index score is calculated by taking an average of all its individual component item scores:</p> <ul style="list-style-type: none">• OPM calculates four Human Capital Assessment and Accountability Framework (HCAAF) indices to track progress towards HCAAF objectives and the Conditions of Employee Engagement index to measure workforce engagement.• OPM calculates the New Inclusion Quotient (New IQ), which was built on the concept that individual behaviors, repeated over time, form the habits that create the essential building blocks of an inclusive environment.• ODNI calculates an IC Collaboration index to track levels of collaboration across the Intelligence Community.

2015 WES Performance-Importance Matrix

The Performance-Importance Matrix examines the relationship between each key index and organizational satisfaction. This matrix provides a framework for identifying areas of success and areas of future focus.

About the Matrix

- This matrix plots index scores on the horizontal axis and Pearson's correlation coefficient on the vertical axis. **Lowest scoring indices** are shown in blue; **Highest scoring indices** are shown in green.
- Pearson's correlation coefficient measures the correlation between each index and organizational satisfaction.
- DIA's three lowest scoring indices also have the **strongest** correlation with organizational satisfaction.
- Pay, Work/Life Balance, and Teamwork and have the **least strong** correlation with organizational satisfaction.
- For the most impact on organizational satisfaction, action plans should focus on the following three low-performing and high-importance indices:
 - **Effective Leadership – Empowerment**
 - **Effective Leadership – Senior Leaders**
 - **Performance Based Rewards & Advancement**

Appendix B:

Effective Leadership - Empowerment Index

About the Index

The **Effective Leadership - Empowerment Index** is composed of two items.

This index measures the extent to which employees feel empowered with respect to work processes and how satisfied they are with their involvement with the decisions that affect their work.

Effective Leadership: Empowerment Index Items % Positive	DIA 2012	DIA 2013	DIA 2014	DIA 2015
Employees have a feeling of personal empowerment with respect to the work processes.	47%	↓ 41%	↓ 37%	↓ 36%
How satisfied are you with your involvement in decisions that affect your work?	53%	↓ 47%	↓ 44%	↑ 47%

Note: Due to rounding, the directional arrows for items with very small score changes (less than .05%) may not appear to match the direction of the score change.

DIA Index Score – 2015

Effective Leadership – Empowerment Index Scores: 2012 – 2015*

DIA's index score increased by **2 percentage points** between 2014 and 2015

This index remains **below** 2012 – 2013 scores

* 2015 Federal survey results will be released in Fall 2015

Effective Leadership - Fairness Index

About the Index

The **Effective Leadership - Fairness Index** is composed of two items.

This index measures the extent to which employees believe disputes are resolved fairly in their work unit, whether or not employees believe arbitrary action and personal favoritism is tolerated, and if employees feel comfortable reporting illegal activities without fear of reprisal.

OPM New IQ Overview and by Demographic Group

About the New IQ

The **New IQ** was developed by OPM in 2014 and is being calculated by IC agencies for the first time in 2015. 20 items related to inclusive environments are grouped into 5 Habits of Inclusion:

Supportive, Open, Cooperative, Empowering, Fair.

The largest difference in **New IQ** scores by demographic group is by **Gender**; men score 6 points higher than women.

The habit **Fair** is both lowest scoring DIA-wide and shows the greatest disparities by demographic group.
