ALCON,

At the request of (b)(3):10 USC 424; (b)(6) will be briefing us on their assessment of the origins of SARS-CoV-2 on 29 June at 1100. Please see the attached read-ahead for a general idea of the basis for their assessment. The outcome of the briefing will determine the way forward; however, if it is determined that a change in the analytic line is necessary, it will be handled through the established production guidelines for publishing on the topic of origins.

I've kept the distro on this the same as the original distro; I defer to (b)(3):10 USC 424; (b)(6) for any others that she would like to have in the room.

Please let me know if you have any questions.
