

DEFENSE INTELLIGENCE AGENCY

ISSUE #1

DIA

EXPOSING THE TRUTH

After a period of unrest, **General Rogue** of the **People's Federation of Redland** has been stirring up his people, advocating for **WAR** with their neighbor, the **United States of Blueland**.

On October 21, **General Rogue** moves a number of tanks toward the border of Blueland.

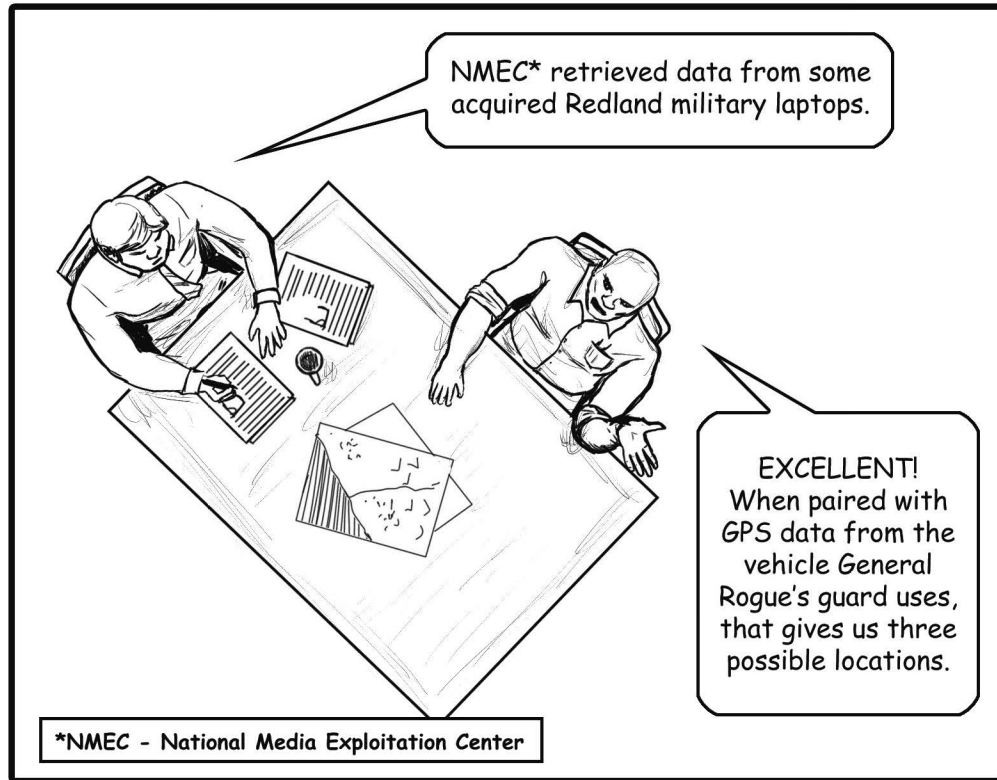

Mr. Jones, the Secretary of Defense for BlueLand, receives an update on the situation.

The **DEFENSE INTELLIGENCE AGENCY** provides intelligence on foreign militaries to prevent and win wars.

ALL-SOURCE INTELLIGENCE:
As an all-source intelligence agency, DIA creates products based on all available sources of collection info.

Our Science and Technology team received seismic data near two towns. The signatures match previous ones for the model of tanks we are looking for.

The Directorate for Operations is saying they have sensors on a vehicle there and are collecting on the two towns. We'll get their data soon.

WHAT WE FOUND

- THREE T-31 TANKS
- MOVED TO GET TECH UPGRADES
- INOPERABLE FOR THREE WEEKS UNTIL UPGRADED
- NO IMMEDIATE THREAT

DEFENSE INTELLIGENCE AGENCY

At DIA, we provide detailed information on foreign military capabilities and operating environments to United States military and government leaders. This information enables them to both prevent and decisively win wars. Our diverse workforce is skilled in military history, economics, physics, chemistry, world history, political science, bio-sciences, and computer science to name a few fields.
